Wednesday Challenge Form

Group Members: Will, Mason, Raul, Me

Problem Statement: Try to get ebola from one Bag to another without dropping it and Not touching the side.

Approach: We tried at least 3 different Devices but none of them worked maybe If we had more time we could have made a We could have had a recordable time. We made More like a chopstick design but it really didn't Work out.

Solution: made a chopstick type of device.

Lessons Learned: shouldve had more time we Could have made a better device.
